

Heritage Refurbishment for Royal Parks

Client Name: The Royal Parks

Project Overview

CLS Group Construction Project – Bushy and Richmond Parks, The Royal Parks

CLS Group undertook a programme of internal and external repairs and refurbishments across multiple properties within Bushy and Richmond Parks for The Royal Parks. The works included mechanical and electrical upgrades, as well as specialist repairs to roofing, masonry, and timber structures.

Internally, we carried out full redecoration and installed handmade bespoke cabinetry, crafted using timber offcuts from trees within the parks.

Antique furniture was also added to preserve the historic character of the spaces. As the huts are used by Royal Parks volunteers, we upgraded the electrics and installed heating to enhance comfort and convenience.

Details

- External and internal repairs
- Refurbishment works
- Mechanical & Electrical
- Roof works
- Masonry and timber repairs
- Repointing
